

Airport Fire Service Managers Course

SFJ Awards Level 4 Certificate in Operational Management No: 603/2142/8

Course Overview

IFTC is offering a modular based programme leading to a *Skills for Justice Level 4* qualification in operations management for fire service personnel. The course will comprise a wide range of blended learning activities including pre course study, taught sessions in the classroom, incident simulation, case study analysis, one-to-one coaching and tutorials, and the identification of additional learning needs through a personal development plan.

The qualification consists of mandatory units:

- Develop, implement and evaluate operational plans for own area of responsibility
- Provide leadership and direction for own area of responsibility
- Implement change in own area of responsibility
- Address performance problems affecting team members

Total Qualification Time (TQT): 200 hours
Guided Learning Hours (GLH): 80 hours

This is a certificated course which will require post course assignments and other student-centered activities that is mandatory for all students to achieve the qualification. This will include a number of workbooks and assignments guided by the tutor with a final element being a written project.

Your fire service personnel know what to do and how to do it in the event of an emergency.

But you know that running a fire station is about so much more. It's about leadership, planning, delivery and improvement.

Do your current managers have the skills and knowledge to manage people, resources and risk? And the people in your talent pool who are part of your succession plans?
