

Low Category Supervisor Initial – Structured Learning Programme *(Low Category Aerodrome RFF Category 2)*

The programme is designed for personnel with Fire and Rescue Service duties at Category 2* licensed aerodromes.

**(personnel with similar responsibilities at Special and Category One airports will find this programme very useful and as such are eligible for nomination)*

Pre-Course Requirements

Previous fire experience, whilst desirable, is not a pre-requisite for this programme. The training is of a very physical nature and licence holders should assess the medical and fitness suitability of all personnel detailed to respond as part of the RFFS, therefore students attending must be medically fit to carry out such work.

The programme may be offered to any persons having:

- A current *Certificate of Competence as a Firefighter (Low Category Aerodrome)* or one which has expired within the preceding six months, or
- A current *Record of Competence* equivalent to that of a Local Fire Authority role mapped Firefighter
- The equivalent *Ministry of Defence (MOD)* standard to that of the role of Firefighter
- *National Vocational Qualification Level 2 Firefighter, Level 3 Operations* or its equivalents.

Aim

To develop the skills required of those persons in a supervisory capacity for fire and rescue service duties at Lower Category Aerodromes and to provide them with sufficient knowledge of the subject to enable them to carry out basic training at their respective airports.

The structured learning programme will be formally assessed through written and practical assessments; On successful completion of the programme the individual will be issued with an appropriate certificate of competence and will possess the level of knowledge, understanding and skills as provided by a structured learning programme. The period of validity of the certificate of competence will be 4 years
