

Product title: Helideck Emergency Response Team Member Further Training

Product code: 7541

Product type: OPITO Standard

Product category: Oil and Gas / Specialist Emergency Response / Helideck and Emergency Response Teams

Who is the Product for?

This Product is for currently-appointed OPITO-certified HERTMs that are required to revalidate their OPITO HERTM certification by refreshing and updating their knowledge and skills in aspects of their role that they cannot practice in the workplace.

Training and competence assessment of OPITO-approved Helideck Emergency Response Team Members (HERTMs) will comprise both onshore training and offshore workplace training and assessment.

This Helideck Emergency Response Team Member (HERTM) Training Products form part of a wider industry Helideck Training and Competence Framework including helideck operations initial training, helideck emergency response team member and team leader initial/further training and associated helideck role workplace competence assessment standards. Further information on the wider industry Helideck Training and Competence Framework is depicted in the Helideck Training and Competence Framework - See supporting document

Appointment of HERTMs and HERTLs

The Installation, MODU or vessel Duty Holder is responsible for ensuring that personnel appointed to Helideck Emergency Response Team Member (HERTM) and Helideck Emergency Response Team Leader (HERTL) roles have received sufficient training and gained relevant experience to undertake the role(s) competently and safely.

The Duty Holder must ensure that, apart from the provision of onshore training:

- a) Workplace training is provided and workplace competence assessment is conducted, AND
- b) Additional Training - e.g. Dangerous Goods by Air Awareness (DGbA), radio operator's certificate of competence (HERTL only), helicopter refueling (where required) and meteorological/weather reporting training (where required by duty holder) is provided before the HERTL or HERTM is appointed to the role(s).

What does this Product cover?

This Product aims to to give HERTM's the opportunity to practice and maintain the skills required when dealing with helicopter emergency response situations or incidents as members of an Offshore Helideck Emergency Response Team, in aspects of their role which they cannot reasonably practise offshore.

How can you successfully achieve this Product?

To achieve the Helideck Emergency Response Team Member Further Training the learner will need to complete the one mandatory unit.

Working together to develop a safe and skilled energy workforce

What could this Product lead to?

Helideck Emergency Response Team Leader Initial Training

What are the entry requirements?

The prerequisites for the HERTM Further Training are:

- a) A valid OPITO Helideck Emergency Response Team Member Training Certificate
- OR

A valid OPITO HERTM Further Training Certificate.

Medical entry requirements

Training activities contained within this Product may include physically demanding and potentially stressful elements. All personnel who participate in such activities must be capable of participating fully.

Therefore, OPITO-approved training centres are required, as a minimum, to ensure that prior to participating in practical exercises the learner is declared fit, in that they

- a) Possess a valid, current offshore medical certificate or
- b) Possess an operator approved medical certificate,
And
- c) Undergo medical screening by completing an appropriate medical screening form provided by the OPITO-approved Centre

The OPITO-approved Centre shall keep a record of the learners' declaration(s) of fitness in accordance with their document control policy(s) or procedures. This information, along with summary details of the type of physical activities the delegate/candidate will be asked to perform, will be given to learners by the OPITO approved Centre and, if applicable, to their sponsoring company as part of the joining instructions. The responsibility for declaring any current or pre-existing medical conditions that could have adverse effects to the individual's state of health while undertaking the training and/or assessment activities lies with the learner and/or company sponsoring the learner. Where doubt exists regarding the fitness of any learner, the OPITO-approved Centre must direct the individual to consult a medical officer familiar with the nature and extent of the training.

Note: Practical exercises must be designed and delivered solely to meet this Product and must not place on the learners any demands other than those required to meet the Product.

Country Specific if applicable?

N/A

How is this Product assessed?

Learners will be assessed against the outcomes specified in accordance with the assessment guidance detailed in each unit.

The details outlined are an overview of an OPITO Product, which is part of the OPITO Product Portfolio and is owned by the organisation. These Products carry the OPITO logo.

Please note, Products are subject to change in line with OPITO's policy of continual improvement.

Working together to develop a safe and skilled energy workforce

What are the Guided Learning Hours?

12.5 hours

What staff resources are required to deliver this Product?

Staff

Instructional staff must:

- a) Fully understand the requirements of this industry standard.
- b) Have been trained in training delivery and training assessment techniques.
- c) Hold an industry-recognised assessor qualification.
- d) Participate in an ongoing training and development programme which ensures that they are aware and knowledgeable of relevant industry requirements and changes to requirements.
- e) Possess occupational experience in firefighting and practical knowledge of helicopter emergency response operations

All staff will have the appropriate competencies to conduct or assist (as appropriate) with the element of training being undertaken.

OPITO Centres must have an auditable training programme in place to ensure instructors keep up-to-date with relevant current offshore practices and changes. The programme must include at least two of the following: visit(s) to offshore fixed or mobile installations, visit(s) to heliports, visit(s) to dry-docked rigs that have helidecks.

What facilities and equipment are required to deliver this Product?

Facilities

For details of facility and equipment, please refer to OPITO Standards Heli-training Facility and Equipment Specification Document

First Aid Facilities

Appropriate first aid facilities and equipment as specified in the training centre's risk assessments, and sufficient staff trained in the use of the facilities and equipment.

All facilities must be maintained and where appropriate, inspected and tested in accordance with current standards/legislation and manufacturers recommendations.

Risk assessments must be conducted and documented for all training facilities and equipment.

Equipment

Equipment used during practical exercises must be of a type in use regionally on offshore oil and gas installation/vessel helidecks.

For details of facility and equipment, please refer to OPITO Standards Heli-training Facility and Equipment Specification Document

All equipment must be maintained, and where appropriate, inspected and tested in accordance with current standards/legislation, guidance and manufacturers recommendations.

The details outlined are an overview of an OPITO Product, which is part of the OPITO Product Portfolio and is owned by the organisation. These Products carry the OPITO logo.

Please note, Products are subject to change in line with OPITO's policy of continual improvement.

Working together to develop a safe and skilled energy workforce

What is the validity of this Product?

2 years

Product Summary

Product Structure:

To achieve the Helideck Emergency Response Team Member Further Training the learner will need to complete the one mandatory unit.

Unit Code	Unit Title
OIS-27	HERTM Further Training

Unit Summary

Unit Code	OIS-27
Title	HERTM Further Training
Guided Learning Hours	12.5 hours
Assessment/Evidence Requirements	Records of assessment referencing all outcomes, must be securely maintained.

OUTCOMES	CRITERIA
<p>1 Outcome: Relevant aspects of helideck operations and helicopter emergency response</p> <p>The learner will understand:</p>	<p>1.1 Key parts of relevant helideck operations regulations and guidelines</p> <p>1.2 The principles of helicopter emergency response including:</p> <ul style="list-style-type: none">1.2.1 helideck ER team priorities during an emergency1.2.2 firefighting systems; fixed and mobile1.2.3 review requirements for pre-use checks, donning and use of earthing apparatus1.2.4 search and rescue on the helideck and inside the helicopter1.2.5 casualty management1.2.6 Human Factors during emergency response including stress affecting decision making, physical
