

1 Day Intensive Aviation Fire Training and Exercising Programme

This programme is designed for personnel who would benefit from a skills refresh in a realistic and demanding training environment with exposure to the authentic physical and environmental conditions of a hydrocarbon liquid fire.

Pre-Programme Requirements

Certified satisfactorily completed initial training. Learners must be physically fit to participate in all aspects of the training.

Duration

1 day.

Aim

The aim of this programme is to provide fresh scenarios to test your crews in internal maintenance of competence scheme.

Training with kerosene burns and the ability to discharge high volumes of foam and powder be valuable in preparing your firefighters for an emergency.

Programme Content

- Cat 7 refueling incident.
- Cat 5 incident with light aircraft.
- Cat 9 internal fires including flashover.
- Cat 8 engine and undercarriage fires with search and rescue into the Cat 10.
